## About Me

Highly motivated and detail-oriented Front-End Developer with a strong foundation in modern web development technologies, including HTML, CSS, JavaScript, and React. Passionate about creating user-friendly and interactive web experiences, currently specializing in crafting engaging wedding invitation websites for couples. Eager to learn and contribute to a collaborative team environment.

## EDUCATION

### Codecademy

Full Stack Engineer Bootcamp  
2023-2024

#### During the bootcamp, gained hands-on experience in:

- Developing and deploying responsive user interfaces using HTML, CSS, and Bootstrap.
- Collaborating with other developers on projects
- Participating in code reviews and debugging processes.
- Connecting Front End to Back End

### North West University (Vaal)

Bachelor's in Education  
2010-2014

## PROJECTS

For additional information please visit my portfolio.

## EXPERIENCE

### Freelance Web Developer

2023 - current

- **Wedding Invitation Websites:** Built custom wedding invitation websites for couples, offering a range of visually appealing design templates. Key features include:
  - **Responsive Design:** Developed with HTML, CSS, and Bootstrap for seamless access across devices (phones, tablets, desktops).
  - **Interactive Elements:** Implemented dynamic features using JavaScript, such as a countdown timer to the wedding day and a contact form with validation for guest inquiries.
  - **Guestlist Tracker:** Created a guest RSVP management system allowing couples to easily track guest responses and manage their wedding guest list.

### Teacher

#### Curro Roodeplaat - RSA

2018 - 2022

- Utilized technology to create interactive online lessons, showcasing strong communication and adaptability skills.
- Collaborated with parents and colleagues to foster a positive learning environment

## SKILLS

- **Front-End:** HTML, CSS, JavaScript, React, Bootstrap
- **Version Control:** Git
- **Additional:** PHP, SQL, Python
