## Personal statement

Seeking a position of a Learning and Development Training Consultant to implement my knowledge as a teacher as well as my analytical and evaluational reasoning skills. I am always striving towards finding and mastering new challenges and creating challenging but achievable goals for people of all capabilities. Dedicated in providing outstanding learning opportunities that will contribute to cognitive development and overall wellbeing.

## Areas of expertise

## Personal

- Inspire, challenge and motivate people of all abilities.
- Effective communication and time management.
- Adaptable and approachable.
- Proficient in verbal and written communication.
- Creative problem-solving skills.

## Teaching

- Encourage independent learning by applying different teaching styles.
- Experienced in developing and delivering training material.
- Creating a positive and comfortable learning environment.
- Giving constructive but also motivational feedback to learners.
- Experience in teaching second language learners.

## Career history
